PM changes to LaGen CD.DOC

Gentlemen,

Here is your original CD with edits only to the PM provisions to reflect that the plant can rely on the emission monitoring and reporting requirements under either the MATS rule, 40 C.F.R. Part 63, or under the NSPS, 40 C.F.R. Part 60, but not both. If the MATS rule were, for any reason, vacated, we would utilize the requirements under Part 60 to meet the PM CEMS requirements of the CD.

Bill.
